Skills

Web Development:	HTML, CSS, JavaScript	**Operating Systems:**	Kali Linux, Ubuntu
Programming Languages:	Python, C++, SQL, PL/SQL (Oracle)	**Tools & Technologies:**	Git, GitHub

Work Experience

Web Development Intern   Duration: 2 months
Cloud Counselage Pvt. Ltd.

College Information Project

– Developed a comprehensive website to provide detailed information about colleges in India, including course offerings and admission processes.
– Designed and implemented the front-end using HTML, CSS, and JavaScript for a user-friendly interface.
– Developed a backend API using Python to fetch data from an external website, enabling real-time information access.
– Collaborated with team members through Git and GitHub for version control and project tracking.
– Ensured the website's responsiveness and cross-browser compatibility for an optimal user experience.

Education

Mumbai University
Bachelor of Science in Information Technology
Minors: Computer Networks, Operating System,Data Structure,Numerical Analysis

Certifications

– Mern Stack - Mernstack Workshop Certified
– Python- Virtual Python certificate course

Projects

Portfolio Website

– Developed a personal portfolio website to showcase my skills, projects, and professional experience in web development.
– Utilized HTML, CSS, and advanced CSS techniques to create a visually appealing and responsive layout.
– Incorporated JavaScript for enhanced interactivity, improving user engagement and navigation.
– Leveraged ChatGPT for guidance on best practices, design refinement, and functionality enhancements.
– Featured sections include project showcases, an interactive resume, and a contact form for potential clients and collaborators.
– Integrated links to my GitHub and social media profiles, providing easy access to my work and professional presence.

College Information Website Project

– Contributed to the development of a comprehensive website providing detailed information about colleges in India, including course offerings, faculty details, and admission processes.
– Designed the front-end using HTML, CSS, and JavaScript, ensuring a user-friendly and visually appealing interface.
– Developed a backend API using Python to fetch data from an external website, enabling real-time information access for users.
– Collaborated with team members through Git and GitHub for version control and project tracking.
– Ensured the website's responsiveness and cross-browser compatibility to deliver an optimal user experience.

Additional Skills and Activities

– Volunteer Experience: Assisted in organizing college events, where I developed skills in discipline, time management, and effective communication.
– Workshops and Seminars: Attended various workshops on web development, Python programming, and database management to enhance my skills and stay updated on industry trends.
– Online Courses: Completed online courses in advanced JavaScript, SQL, and web design principles to further expand my knowledge.
– Soft Skills: Developed strong communication, time management, and leadership skills through involvement in college clubs and events.
